Dear Mr. Counterman

This letter serves as notification of Presque Isle County's Notice of Intent to develop and adopt a single-county Materials Management Plan for Presque Isle County. Presque Isle County requests this letter be added to your website, if available, for public information purposes.

Amendments to Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended became effective in March 2023 and includes a new materials management planning process. Current County Solid Waste Management Plans are required to be replaced with new Materials Management Plans with a focus on sustainable materials management approaches, such as recycling and composting, instead of only landfilling waste.

The Presque Isle County Board of Commissioners' recent discussions have focused on Presque Isle County's need to develop and implement its own Materials Management Plan, which resulted in the Board of Commissioners adopting the following resolutions:

- **Resolution 2024-14:** A Resolution of Notice of Presque Isle County Assuming the Responsibilities of Becoming the County Approval Agency (CAA) for the Development of the Materials Management Plan
- **Resolution 2024-18:** A Resolution to Approve Developing a Presque Isle County Materials Management Plan.

If you would like additional information concerning the Materials Management Plan, please feel free to contact me by email at piclerk@picounty.org, or by phone at (989) 734-3288

Sincerely,

Ann Marie Main
